We watch RFD-TV on the DISH Network Channel 231 and 232. These channels are very family orientated without adult advertising which younger children should not be subjected to. The programs that we normally watched are: Larry's Country Kitchen, Country Family Reunion, Cumberland Highlanders, The Presley's, Marty Stuart Show, Rory and Joy Show. We also watch Tractor Fever and machinery show which are very interesting. We also watch Rodeos such as Bull Riding, Barrel Racing and other events associated with this sport. We think that these stations should stay on the air because of the clean family programs and advertising. These stations are important to Rural Farm information as far as agricultural is concerned. We have enjoyed it since it came on the air and continue to watch it.
