I watch RFD-TV on Direct Television in Creston, Iowa. I am writing in support of rural television. As both an agriculture education teacher, FFA Advisor, and farmer, RFD-TV provides informational programming that is educational as well as entertaining. RFD-TV provides opportunities for non-agriculture based viewers to learn about what is happening in our world and how misconceptions in main frame media are incorrect regarding agricultural issues and advancements. RFD-TV also provides opportunities for my students to engage in agricultural content as well as celebrate the organization that we are so proud of. It is sad to think that it is possible for your organization to cancel quality programming that is meaningful yet support programming that is not family friendly or only addresses one type of viewer such as sports. Please do not take rural television from America.
