Dear Sir or Madam:

I wanted to let you know that I believe that the freedoms guaranteed to Americans in the First Amendment are vital to our national health. As a member of a college history faculty, I teach my students each semester about the importance that newspapers played in the development of our nation. This has changed as the technology surrounding how American received their news; today cable news is as vital to us as newspapers were in the early Republic.

I implore you to ensure that in the mergers that are currently taking place with Charter that smaller media firms are not left out of the mix on the cable providers.

In our hyper-sensational news climate, One America News provides Americans with a calm network, where reading the news is what is done with aplomb. Please make sure, as our Civil Servants are dedicated to keeping our airwaves centered on the American people, that this network, and others like it, are not left off of the channel line up. It would be a travesty if it would happen.

Thank you!

Sincerely,

Kevin M. Kerr
