Chairman Wheeler,

I'm writing to urge you to restore broadband competition by fixing the broken market for high-capacity broadband lines. The FCC must address anti-competitive behavior in this market to reach its goal of delivering better, faster, cheaper broadband to all Americans. The future of our information economy depends on it.

Each year, their rates go up and the quality of the service diminishes for the basic access for the Internet and TV service. Please establish some regulations/guidelines to ensure all citizens and community will have access for a fair price or free, as it once was. Kathleen Kestelyn
