I watch OAN a number of times a day on my TV ATT UVERSE. It is the only straight news channel and is indeed a refreshing experience. I also check it a number of times daily on my I-phone. The print is larger and more user friendly than other outlets such as Reuters or other news channels. As an independent news organization, it should expand nationally and internationally. This is by far the best and straightest news outlet and organization available and it should be picked up and expanded widely in the country.
