I watch RFD-TV through DirecTV and am 80 years old. I enjoy listening on RFD-TV to the old-time music, bluegrass music, and country western music. It would be a REAL shame to lose such a wonderful channel for us retired folks when that's the biggest part of our weekends. Please do not allow this programming to be deleted from our viewing or to have an increase in price so that the carriers cannot afford to bring it to us. We're asking you to please allow all older Americans and country folk to be able to keep RFD-TV and similar independent programming. Thank you very much for your consideration and help in this matter.
