I watch RFD-TV on DirecTV channel 345. This channel is watched for roughly 2-3 hours per night and that is not counting the numerous shows that are DVR'd. There is so much useful information as a small farmer I've gained from all of the Ag shows and not to mention I am a horse owner and get tons of training tips from watching Clinton Anderson, Chris Cox, Craig Cameron, and Tyler Magnus just to name a few. The different music shows like Hee Haw are an awesome throwback to my childhood and what would I do without the Rural Evening News. This is one of the few channels that is still on TV today that actually needs to be there. The majority of the shows are family oriented which is lacking in the rest of this industry. Please leave RFD-TV alone and allow everyone to enjoy it before we are all forced to watch the very stupid Kardashian or filthy rich housewives crap that litters the airwaves and corrupts the minds of too many Americans today!
