I watch RFD-TV on Harrison telephone company, aka HTC, in Waterloo, IL i'd be lost without that station. the music and entertainment and rural information shows aren't shown on any other station. it's vital to receive this information. clean entertainment, music shows no one else carries. it's just a wonderful station. to tell the truth, if it wasn't for RFD-TV, I wouldn't even purchase cable tv. most of the stuff on cable is crap; RFD-TV stands alone as the broadcaster of high quality, informative programming.
