I watch RFD-TV on DirecTV and my family enjoy all the programs offered on this channel. It is wonderful to have this channel that my family can watch and I don't have to worry about any smut, violence, or anything that is going to insult the intelligence of my family. This is a good country, rural, independent station that is pure and wholesome!! We watch this station more than any other because I can trust nothing is going to be off colored or political. If any station should stay on the air it should be RFD-TV. Get rid of the trashy stations and keep this one!!!! Shame on any cable or other TV provider for even considering taking RFD-TV off the air!!!!
