

60001531414.txt

I strongly support the position of Independent Broadcasters such as RFD-TV, Rural-TV, Blue Highways-TV, The Weather Channel, etc. in their fight against cable operators and major TV programming squeezing them off of the air. I am a faithful patron of RFD-TV which I reach through Dish Network, to which I subscribe. Although I am now a practicing attorney, I was raised on a farm and still follow agricultural news programs, but I especially enjoy the music programming of RFD-TV which features classic country and traditional country music. It is the only source for this type of programming. I request that you assist us by enacting and supporting regulations which prevent large TV programming and cable operators from discriminating against the independent operators such as RFD-TV. You may contact me at the address listed above.
