We watch RFD by satellite provider... DirecTV. We enjoy your programs very much. Our TV is on the RFD station over 50% of the time. We enjoy your music programs, ag programs, tractor pulls, tour of different areas, We get instructions on how to do some things on the farm. The variety of music programs. We are in our 70's & 80's enjoy the ole music instead of these bebop that some call music. Hope FCC the can understand why it is important to keep the RFD TV on the air to help support the farmers where work ethics and our food comes from. May we continue to see RFD on our screens.
