I watch RFDtv on uverse in Louisville KY. I am referring to proceeding #16-41 that is currently being debated. I enjoy the family oriented programming and the rural connection of RFDtv. Why are there channels for muslims, blacks, latinos, and gays but no programming that I feel safe in letting my grandchildren view? Doesn't the rural population and elderly deserve their own programming too? I urge you to leave RFDtv on the air and promote the good shows that help promote a family lifestyle and that can also help those who have not been shown this way of life. You will not see any drama, strife, murder, etc. on this channel; can you say that about any others? Please reconsider your decision.
