Re: *Connect America Fund*, WC Docket No. 10-90; *Universal Service Reform Mobility Fund*, WT Docket No. 10-208

Dear Ms. Dortch,

On March 10, 2016, Chris Nierman of General Communication, Inc. (“GCI”) and I met with Jim Schlichting, Sue McNeil, Chris Helzer, Claire York, and Matt Warner of the Wireless Telecommunications Bureau about the above-captioned proceedings. We discussed GCI’s proposed performance commitments under the Alaska Plan. We provided an overview of how GCI provides mobile wireless services in Alaska, where it has been deploying HSPA-based technology and where it has been deploying LTE. We also discussed the fact that GCI is developing a LTE-over-satellite solution, which would be part of its delivery mechanism under its commitments. We also stated that the numbers reflected in the previously-filed commitment table were prepared prior to the FCC’s making available its latest Form 477 data. GCI is reviewing that data to see how it affects the proposed commitments.

Please do not hesitate to contact me if you have any questions regarding this matter.

Sincerely,

John T. Nakahata  
*Counsel to General Communication, Inc.*
