

60001534394.txt

We are subscribers to DirectTV. We have been since the middle 1990's.

We need RFD-TV. WE use it for our grain markets. Most of the other stations have dropped the grain markets.

This station gives all the "city" folks where their food comes from. Most do not realize what country folks do. They can learn to appreciate all aspects of rural life.

Keep RFD-TV on the air.
