I enjoy watching RFD-TV provided by dish network on channel 231. I am sorry to hear that the FCC would consider not continuing RFD TV programming. Of all of the programs available RFD TV is probably the most important next to the weather channel that I watch on a daily basis. If the FCC would discontinue this fine programming, I would probably cancel my subscription to cable TV. RFD TV is one very important educational program for the farmer and the public too, unlike so many channels which are recreational primarily and full of junk and violence that degrades our society's values America has been known for. Please keep our sights on clean programming like RFD TV that gives us positive and productive viewing.
Thank you for listening,
Gary Erwin
