I watch RFD-TV at Channel 345 on the Direct-TV provider. RFD is the only channel that provides wholesome, family oriented programming that I am pleased that my grandchildren like to watch also. It is the one place the family can gather to hear good music, great family comedy, interesting programming related to rural America, and programming that I am certain is beneficial to the agriculture and livestock community. I would really be disappointed in whoever might be responsible for taking away this great source of family programming.
