Dear F C C Personal. We watch R F D-T V on Dish satellite as our provider. It is time to let the C E O's sitting in their corner office's that their is another wonderful world outside their windows. For Verizon and other cable Co,s to drop R F D T V and other programs geared to seni or citizens from millions of viewers is outright arrogant and irresponsible. Farm and country citizens need these programs for everyday decisions. Your attention in this matter is greatly appreciated.  
Si ncerely Yours, Roger and Celeste Gei se
