Dear FCC,

I watch RFC-TV on Dish. Even though I don't have a farm or a ranch I appreciate programs like AGPHD which are informative about farming because I realize that our food comes from crops in the field, not the store. My wife and I love the country music shows such as Marty Stewart, Ray Stevens, Cumberland Highlanders, Larry's Country Diner, Country Family Reunion, and the like. We also love to watch Mollie B's Polka Party, Quilt In A Day and the cooking shows. I think we should keep the connection strong between rural and urban communities. Our Country has its roots in rural history. We should always remember that. Thanks for your time.
