I watch RFD-TV on Dish Network. I pay over 100.00 a month for my TV programming and out of the hundreds of options I only watch about five yet in order to get the few I want I have to pay for it all. Cable & sat. Have a ridiculous amount of control and they BULLY to get what they want by blocking programming etc. There are so few things a family can watch together anymore. RFD TV programming is valuable, informative and decent above all. Please do not allow this practice of pushing out the little guy, we the viewers are all little guys but collectively we are one big voice. Thank you
