I watch and set my DVR on my Time Warner Cable box for numerous shows and events EVERYDAY! It would be a catastrophic decision to drop/block RFD network/channel. This is a great family oriented channel that focuses on everything that is American! It covers agricultural, which is the roots of America and also "THE ONLY CHANNEL" that does so! If this channel is blocked/dropped from "Time Warner cable" I will promise that my cable account will be cancelled immediately and I will personally advise everyone I know to cancel with their provider.
