the man whi lives next door is using something called "Bubble Wrap" to steal my person information from my phone and computer. I have pictures and other tracking proof of this. He also has any all aircraft licenses possible. I have his name as William Peters but he goes by others as well ..Peter Williams' , Fred Braneff, and also 3-D Fred on the internet you can reach at 818-554-0842, of course if he is not hacking me. Police seem not to understand, but I doubt that because they use SIMPLEX to communicate on channel 19 and I have heard all of this and more on the broadband radio.
