To Whom it May Concern:

I watch RFD-TV on Direct TV and would hate to see it removed. It is very important to me because it has a lot of programming that is relevant and entertaining, unlike some of the content on other channels that I have.

It is imperative that independent programming like RFD-TV be offered in the most economical cable package and not put on some expensive tier, where the customer has to pay more. I believe that these channels are what the public is most often looking for in their TV service. It is very important that the public has choices for independent channels. I also feel that RFD-TV also appeals to a wide variety of people.

Media giants should not be allowed to block independent programming from being distributed due to their own bias.
