I watch RFD-TV on Directv and it is the only reason that i have satalite TV. I live in a very rural part of Va and if i want to watch TV it has to be on Satalite. Also i am on a fixed income so in order to recieve RFD-TV's signal in needs to stay included in the basic package. I hope ya'll do not decide to change this because it would impact this area and the people who live here greatly.
