I watch RFD-TV on Direct TV at my Mom's because we cannot afford the more expensive programming packages.

I am in support of the RFD-TV's rural and senior programming, because they are educational for our rural students, or anyone for that matter. We especially like the NFR and The American Rodeo's, as well as others, plus all of the horse training segments. Having to travel 20 mile to Mom's doesn't always allow be to watch very often, but if RFD-TV and the Disney channels could be allowed in the least expensive packages, then we would get Direct or Dish.

Please protect RFD-TV from being dropped, and allow it in the most economical packages, along with our high definition channel, RFD-HD. Verizon should be REQUIRED to bring back RFD-TV!
