I watch RFD TV on Direc TV. My husband and I are farmers. Our parents were and our grandparents were also. We enjoy tv programming on RFD TV. We get market reports, weather reports, etc.. that are so important to us. We pay good money to look at what WE want to look at, and for channels we don't want to see, but it's in the package. Please don't take away one that is for the people in rural america!!
