I watch RFD-TV on DirecTV - channel 345.

We love to watch "I Love Toy Trains, Trains & Locomotives, Small Town Big Deal, Classic Tractor Fever and many more."

We hope you will continue to let us have these shows and keep one of our favorite stations Channel 345 on DirecTV.

If anything why not have the stations cut all the infomercials we really get tired of paying to watch TV and a lot of the stations run infomercials most of the day, and into the night, not much good TV late at night.
