Re: 16-41

RFD-TV is one of the three channels that we watch the most. If it were not available from our satellite provider, Direct TV, we would be looking for another way to try to receive RFD. Friends who live in the Lewisville, Texas area who have had Verizon have lost their RFD channel. They have been very upset about this loss, and they are considering dropping Verizon. RFD provides useful information and family oriented information and entertainment.

Please, please support RFD-TV.
