I watch RFD TV on Dish Network. I feel it is so important to keep rural America informed of what is happening in the agricultural field today. There are so few forums that relate to what is of important to our industry. Although we are such a small segment of the population, without us who would feed and cloth America. Any information that we can gather that helps us improve our ability to grow better crops in turn helps the consumers. This is one of the main reasons I feel RFD should be kept on the air.
