To FCC

Re: RFDTV

This letter is to inform you of the importance RFDTV is to farmers, ranchers and those of us who love country music. RFDTV has programming that keeps farmers and ranchers up to date on what is trending in their chosen field.

The music programming appeals to those of us who appreciate the older country music. We would be disappointed and upset if it was taken off the air and we would probably drop our provider, we feel that strongly about this. We hope you will decide to keep independent stations like RFDTV on the air for a good long time.

Thank You

James and Donna Edge
