

60001536658.txt

Dear FCC.

I'm writing regarding TV networks dropping individual and rural T.V.
Its the only station worth my monthly bill. 90% of the other stations ain't worth effort to turn on your TV.

I also wish that the networks can't drop RFD-TV and if you want it you have to go to a expensive package. It's the on ly station we watch other than our local stations for news and weather which we can get with our attenta.

Thank you
