I would like to take time to share with you my feelings in regard to the 16-41, RFD-TV channel being dropped. I started watching this channel with my dish company, but had to move and then was forced to get Charter as a television programming. I was paying for the basic tier; I was not able to find the RFD-TV channel. I called to find out why I didn't have this channel. I was told I would have to upgrade to the Gold tier to get the RFD-TV. The gold tier was almost \$40.00 more and include sport package, and encore, star, and other movie channels that I one could not afford nor do I watch. But my love for the RFD-TV channel, I have to have it, so I now go without other things so that I can watch this channel. For I started watching the RFD-TV with my parents, to whom I care deeply for, they raised me to enjoy many things, one be the love of the the old country music, and country living. The music that this channel has is something everyone should be allowed to watch for it is a part of our history of music. I spoke with some of my friends about a show (Joey and Rory Show) and that it is on the RFD_TV, they told me that they did not get that channel. They all told me that they would love to watch it but they couldn't. To miss our a such a wonderful channel and the show it has is just WRONG and to have to pay higher bills just to get this channel when it was once on the basic list is again just WRONG. We country folk what you to do what is RIGHT and keep our independent channel going, and stop these Cable and Satellite Company from raising the price for these channels when they we meet to be free. Thank you for your time..
