I can't write much due to a bad hand. I write only a few lines then I have to rest my hand due to pain. It upsets me to think we're to lose our RFD station. I am 93 years old and like everything about it.

I grew up on a farm where we used horses to plow and plant the land. Milked cows and raised all that we ate except pinto beans, sugar, flour, salt and most cheeses. We did make some of our cheese.

It is very educational for children when I moved to Wichita, KS to live a lot of students didn't know where milk came from. All they knew was grocery store.

I enjoy the entertainment as well I like everything about it. Please consider the rural TV station an asset to people.
