Stop dirty tactic of satellite/cable companies. Please bring in the reins of telecommunication companies. They charge high prices and give little in return. If it weren't for RFD, local news and weather channel we would go back to antenna TV. RFD is essential to rural America's daily life. It keeps us informed on government updates and programs in rural and urban life. It educates everyone from 8 to 80 years old. It's a trusted, clean and reliable source of news and entertainment that links urban and rural ideals. Please remind big satellite companies this is a democracy not a dictatorship. Equal Access to the free market is a constitutional right for everyone.
