Dear Folks at the FCC:

I am not one to explain myself verbally or in a letter like this so I'll try by best.

I'm a fan a RFD TV. It has shows that seniors would enjoy as well as shows the younger population would enjoy. It has shows of rural interests. It has shows of yesteryears. Almost every family has either rural ties now or ancestry that lived in rural areas.

I believe RFD TV has much to offer people of all backgrounds rural & city like too. I pray that FCC would decide in support of these networks have a right to be broadcast into these homes of these who wish to have a change to receive them.

Thank you for reading this humble brief letter from me.
