Greenlight in Wilson, N.C. Is now expanding into other counties without providing service to all Wilson county rural homes.

They are expanding into Pinetops which includes a fiber optics cable running along N. C. Hwy 42 to Pinetops without allowing or providing service to the residents along that route. They have no plans or public plans to when they would provide service to all or any Wilson Co. Homes.

As there are other small towns nearby, I am sure that we will never have this service. Your help is needed
