To: F. C. C.

Ref. Docket No # 16-41

I am writing in regard to the fact that cable companies are charging too much for my family to receive the RFD TV channel.

The cable company bundles R. F. D. channel with 4 or 5 other channels that I do not want but have to pay for them just the same. This is not right for them to do that to thousands of people. I hope someone is smart enough to know that R. F. D. is needed in this U. S. A. Both city and rural folks feel that all cable companies should have R. F. D. in their base package.

The F. C. C. should look at this very close.
