My husband and I watch RFD-TV on Channel 345 in rural Maine -- via Direct TV...

My parents also watch RFD-TV.

This channel is essential to American folks - rural, farming, informational, senior citizens, entertaining -- it is all of the above.

It would be a disgrace for this channel and others like it to be removed from 'big box tv companies'.

We are in the process in this country to getting America back to it's roots -- economically, etc.

RFD-TV is a true example of this...

Thank you...
