I watch RFD-TV on Dish Network and it is one of the channels that I watch the most. I am 83 years old and watching TV is about the only entertainment that I have. I don't think it is right for some of the big guys to try to get RFD-TV off. It is only because they can't provide as good of programming as RFD-TV. You need to remember that all of the TV viewers don't live in the big cities.
