Sir/Ma'am, I enjoy watching RFD TV on DirecTV each and every week. I appreciate the old fashioned programming they offer as it is geared towards those like me who have simple American values and appreciate the simple life the country is known for. Values this country was founded on. Very little programming offered by the urban set and the powers that be offer people of the country very little in TRUE entertainment and even less in real family entertainment. The loss of RFD would be proof that the urban set cares nothing in helping to hold on Americana and those that live it. Please do not let that happen. Thank you for your time. Sincerely,  
Bill Mathis
