I watch RFD-TV on Dish because I enjoy the family style entertainment. I do not watch NBC, CBS nor ABC because their shows are not worth watching any more and do not reflect family values, they are mostly trashy, in my opinion, and this is the reason to keep channels such as RFD-TV on Dish.

Quite honestly, I see no reason for this discussion as RFD-TV fills a void by having wholesome family programming and shows that furnish information to the agricultural and ranching audience, information they cannot get from any other source.

Finally, as we are the ones who foot the entertainment bill, I cannot understand the reason to deny us the opportunity to watch whatever we want to watch without interference.

Thank you for your time.
