I watch RFD TV on DirectTV almost everyday. My grown children, my grandchildren, husband and I watch the many educational programs and entertainment programming which is not available elsewhere. In my opinion this programming is essential to educating everyone to the rural and farming way of life which in turn helps to secure our nations food source for future generations. We also need this programming for or kids in cities who would otherwise have no knowledge of rural life or farming and that they can be a part of it. It also provides wholesome programming that's entertaining and educational as an alternative to the violent and perverse programming kids and people in general might otherwise watch. Please let's keep RFD TV available for the betterment of our country.
