Please don't squeeze channels from broadcast such as rfDTV. My son already lost his service via fios tv and now my dish tv service implies they are losing the channel. Why would you do this to many senior citizen voters who rely on this wholesome family channel. There is so much inappropriate crap on tv how about taking those channels off the air. What the heck is happening to this country! Too much profanity, inappropriate behavior and disrespect to one another. Decent people finally have an outlet to remind them what is good about our nation and scoundrels in the government look to remove it. Keep decency alive!
