I watch RFD - TV more than any other channel and want to continue to watch TV programs on RFD-TV. I have been watching television for many years and this is the Network that consistently has the best variety and can watch with children and grandchildren. It provides shows that are not covered by any other network. The line up on Saturday night will beat out watching football games. It provides shows that are important to a segment of the population that isn't available on any other channel. Please do NOT take this off the air.
