The only reason we pay for the most expensive package on DirecTV is so we can watch RFD-TV.

RFD-TV is family-friendly, rural oriented, and has a wide array of programs to please everyone from horse-lover to farmer to country/bluegrass music lover, etc. etc. FCC, please support RFD-TV and keep it on the air for retirees like me as well as for families wanting wholesome television for their kids to watch and everyone in between. Thank you.
