For everyone's concern:

I would like to express to you how enjoyable it is to have a television channel like RFD TV.

It has good entertainment and a lot of information of the past, which the young generation does not know about.

I am 79 years old and I am learning things about antiques, tractors, steam locomotive training, farming, horse shows and the long running Hee Haw show.

You can't get this kind of entertainment on any other channel.

So please keep RFD as I spend quite a bunch of my time watching RFD TV. I watch TV on DirectTV.

Sincerely,

James T. Ober
