I love RFD-TV, please keep it on. There are very few stations left on t.v that a family can set down and watch together and enjoy it. Most of the stations have dirty talk and are full of sex talk. Even food is compared to the sexy. Bring it back to where Desie and Lucy was not allowed to be in same bed they were in two in beds. we had morals then where has it gone. I watch this program on Direct Tv ch 345 but would be very glad to change it if don't listen to us senior citizens.

Very truly yours
