I watch RFD-TV on DirecTV and I don't understand the reasons for wanting to take it off the air. RFD-TV provides good wholesome programming, especially the Saturday night line up along with airing older shows that are so great to watch. But more importantly, I suppose, is all the other programming so important to those of us that live in a rural setting, that isn't available anywhere else. So please don't allow it to be taken off the air.
