We receive the RFD channel through DIRECTV.

This program has brought so much joy to the elderly than any other shows. It gives them something to watch that they really enjoy. A lot of the programs bring back recollections from their past. It keeps them alert which is a blessing to those around them.

It would be devastating to a lot of elderly, including myself. I am a 72 yr. old care taker.

I grew up on a farm and enjoy watching and remembering the things from my past. Trying to take away what little enjoyment that the elderly have is a crime. The elderly don't have that much to fill their time but this program is uplifting their spirits!

I can't understand why you would want to undermine the pleasure to so many people.

Sincerely,
Rose M. Grove

P.S. I care for an 86 yr. old shut-in.
