

The Honorable Thomas Wheeler, Chairman  
Federal Communications Commission  
445 12<sup>th</sup> Street, SW  
Washington, DC 20554

Re: In the Matter of Revitalization of the AM Radio Service  
MB Docket No. 13-249, Further Notice of Proposed Rulemaking

Dear Chairman Wheeler:

The Pittsburgh Steelers are known for having one of the most energetic and loyal fan bases in the National Football League.

Broadcast radio stations play an important role in connecting our fans with our games as well as the sports talk they want to hear.

I am concerned to read the FCC is considering new rules that would cause increased interference to radio stations across the AM dial. The Steelers rely on WBBG-AM to be our strong co-flagship station, as it helps to lead our radio network on game days.

Thus, we feel any proposal that could create additional interference on AM radio should be rejected.

Sincerely,

Reagan Berube  
Director of Content
