

60001548166.txt

We are writing to ask strongly to allow RFD-TV and independent broadcasters to remain on the air. This station provides wonderful programming. Their programming is informative, educational and inspiring. The programming shares information of our country, our culture and religious inspiration. The programming shares information of our country, our culture and religious inspiration. The programming allowed on the air today with foul language and subject matter and cruelty.

We need to retain what few good clean and inspiring and educational programs like RFD-TV.

Thank you,

Linda Dietz
